An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edwards on December 9, 2004

In claim 27, line 13, ",Si and" has been deleted. In line 23, "said second group consists of Ti and Zr;" has been deleted.

The following is an examiner's statement of reasons for allowance: WO 97/47864 discloses a method for cleaning an exhaust gas emitted from an internal combustion engine by contacting the gas with a catalyst comprising an alkaline earth metal, rhodium, titanium and palladium (i.e, the CO adsorbent). However there is no teaching, disclosure or suggestion in WO 97/47864 to employ the rhodium and titanium in the form of a composite oxide, as required by applicant's claims. Nor would there be any motivation from the prior art to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
